

Dr Kishore Sandu, Chief, Airway Sector, Lausanne University Hospital, Switzerland

Kishore SANDU is the Head of the Airway Sector - a *quaternary* care center of excellence and highly specialized medicine recognized by the Swiss federal health law in the Department of Otorhinolaryngology, Lausanne University Hospital, Switzerland. Following his training in India and working as an ENT staff surgeon at the KEMH Mumbai, he further passed the Swiss otolaryngology licensing examinations. He holds memberships of Swiss society of Otorhinolaryngologists, and the Head and Neck working group of the Swiss ENT society. He is an editorial board referee & reviewer for the International Journal of Pediatric Otorhinolaryngology, European Archives of ORLHNS, Laryngoscope, and Annals of ORL. He has published several articles in peer-reviewed journals and 8 chapters related to compromised airway in children and adults. He has been invited to more than 100 conferences (ENT, anesthesiology, pulmonology, cardiothoracic and pediatric surgery) as a Principal speaker within Switzerland, Europe and Internationally. He has conducted several live surgical / cadaveric dissection / animal model workshops on laryngotracheal framework surgery. His current research activity includes developing a bio-engineered trachea.
